

In Other Worlds: SF and the Human Imagination

Filesize: 7.11 MB

Reviews

Comprehensive manual for ebook fans. I am quite late in start reading this one, but better then never. Its been written in an exceptionally basic way and is particularly merely soon after i finished reading this publication in which really changed me, affect the way in my opinion.

Little, Brown Book Group. Paperback. Book Condition: new. BRAND NEW, In Other Worlds: SF and the Human Imagination, Margaret Atwood, From her days as a child reader in the 1940s, through her time at Harvard, where she studied the Victorian ancestors of the form, and later as a writer and reviewer, Margaret Atwood has always been fascinated with science fiction. Here she brings together three Ellmann lectures: 'Flying Rabbits' begins with her early rabbit superhero creations, and goes on to speculate about masks, capes, weakling alter egos and Things with Wings; 'Burning Bushes' travels into Victorian otherlands and beyond; and 'Dire Cartographies' investigates Utopias and Dystopias, including Atwood's own ventures into those constructions. In further essays Atwood explores and critiques the form, and elucidates the differences - as she sees them - between 'science fiction' proper, and 'speculative fiction', not to mention 'sword and sorcery', 'fantasy' and 'slipstream fiction'. In Other Worlds is a must.
